

COMPUTER PROGRAMMING SPECIALIST

Gain in-demand programming skills... in only two semesters!

Jump-start a career in computer programming! Enroll in Palm Beach State's Computer Programming Specialist certificate program and learn database application development, one of the most in-demand programming skill sets.

The program also covers the competencies for Oracle database professional certifications. Plus, your earned college credits may be applied to other PBSC computer science certificates and the Computer Programming Associate in Science (A.S.) degree.

This certificate prepares you to test for these high-demand industry certifications:

- Oracle Database PL/SQL Developer Certified Professional
- Oracle Database SQL Certified Associate
- Oracle PL/SQL Developer Certified Associate

Get ahead in your spare time: Evening Classes + Online

Attend classes in the evening and complete additional coursework via online sessions. Some courses are offered 100% online.
